BRYAN BERGONIA

CAREER OBJECTIVE

Detail-oriented and passionate Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, along with experience using modern frameworks like Bootstrap 5. Skilled in building responsive, user-friendly interfaces and translating UI/UX designs into high-quality code. Adept at collaborating with teams to develop and maintain functional, clean, and efficient web applications.

EXPERIENCES

PROJECTS

Fish Hop
Game Dev   2022 - 2023

- Fish Hop is a Flappy Bird-style underwater game developed in Java, where players guide a fish through gaps between stalactites to score points without hitting obstacles.

LUTO
Web App   2023 - 2024

- Luto is a Python-based recipe sharing app that lets users create, upload, and explore personalized recipes with filtering options based on ingredients or diet preferences.

Checklist
Web App   2023 - 2024

- Check List website checklist I made to allow you to search your grades, subjects and professors.

Enrollment System   2023 - 2024

- Enrollment System is a digital platform designed to streamline student registration, allowing users to enroll in courses, manage personal records, and track academic status efficiently.
